**Ms Tran Huu Duyen, Country Representative,
ASIS Technologies PTE LTD**

ASIS technologies
www.asis-technologies.com

“We hold Secutech Vietnam in high regard. We first participated in Hanoi in 2023, followed by Ho Chi Minh City in 2024, making this our third consecutive year in the Vietnamese market. It is a highly promising market, and the name Secutech truly reflects the focus on security and technology – precisely what we offer. Secutech provides an excellent platform to connect with numerous potential clients, and we are optimistic about securing an increasing number of projects in Vietnam.”

Mr Mai Xuan Cuong, Sales Director, Silversea JSC

Silver Sea
BIỂN BẠC

“This marks my 15th year participating at Secutech Vietnam, having been involved since the beginning. In the earlier years, analogue technology dominated the market, but over the last four or five years, we see a growing number of companies, manufacturing facilities, and even government bodies using AI. This is why I keep returning to Secutech Vietnam. Each year, I can see the latest technologies showcased at the exhibition, making it an excellent opportunity to stay informed about the best safety innovations that can be applied to the Vietnamese market.”

**Mr Ryan Ong, Regional Sales Lead,
Axxonsoft Asia PTE LTD**

axxonsoft
EXPERIENCE THE NEXT

“We are a software developer, and this year, we showcased our AI-driven video surveillance and security products on Secutech Vietnam’s Tech Stage, receiving an excellent response. As Vietnam is a rapidly growing market, particularly within the Southeast Asia region, it is clear that AI solutions are increasingly in demand. Participating in the fair enables us to expand our market share, strengthen our reputation, and enhance brand awareness in Vietnam.”

**Mr Suttha Suriyabhivadh, Sales Director,
Kidde Global Solutions**

KIDDE

“Kidde Global Solutions is a world leader in firefighting safety systems, and Secutech Vietnam is one of the premier events for safety and security product buyers. The show attracts buyers from Vietnam and across Southeast Asia, providing an excellent opportunity to build networks and grow our brand. Vietnam is rapidly expanding its infrastructure, including factories and commercial buildings, making fire safety a critical priority. As the economy grows, the demand for safeguarding people and property increases, and events like Secutech play a vital role in educating developers and buyers on essential safety standards and products.”

**Mr Ouch Vuthoeun, Business Manager,
VIP Construction**

“My company provides construction materials for modern buildings, schools, churches, villas, and condominiums in Cambodia. Attending Secutech Vietnam has been a valuable experience, with its wide range of advanced products from Taiwan, Vietnam, Korea, Japan, and more. I am particularly interested in security cameras and fire detectors to enhance safety in our buildings. Vietnam’s rapid development in smart buildings over the past decade is inspiring and I plan on bringing the latest safety technologies back to Cambodia to support the development of safer, smarter construction.”

Mr Jing Lee, Territory Manager, Fischer

“Our company manufactures and supplies passive fire protection systems, and we have attended Secutech Vietnam to stay informed about market developments. We see AI and IoT as vital to fire safety, enabling faster, more accurate alarm detection and precise detection of fires. From the fair, I was able to notice new trends, for example how hardware like fire suppression systems and pumps can be paired with intelligent systems incorporating cameras and IoT, creating a comprehensive approach to fire prevention and protection.”

secutech⁺
VIETNAM
AI, IOT & ICT FOR SMART SOLUTIONS

fire & safety
presented by Secutech Vietnam

**Mr Vu Anh Tuan, General Secretary,
Ho Chi Minh City Computer Association (HCA)**

“With Vietnam’s growth in smart infrastructure, such as newly developed smart ports and smart factories, Secutech Vietnam showcases vital innovations that are transforming production and industrial operations. The specialised seminars held during the show are especially valuable, allowing industry players to share insights, exchange ideas, and demonstrate how AI technologies can be effectively integrated into practical solutions. This collaborative environment accelerates the adoption of intelligent systems that are increasingly critical to Vietnam’s evolving technological landscape.”

**Mr Ngo Viet Hai, Deputy General Manager
(AVN) & Regional Sales Head, Advantech**

“Secutech is a well-established exhibition in Vietnam that has recently expanded its focus to smart manufacturing. Security technologies now play a key role in digital transformation, green initiatives, and improving production efficiency. My company specialises in consulting and digital solutions for manufacturing, and through this seminar, we aim to share insights on AI applications that help optimise operations. The event provides valuable opportunities to connect with industry experts and customers, fostering collaboration. AI is crucial today for data-driven decision-making and operational efficiency, but successful adoption requires quality data and a cultural shift to view AI as a supportive partner.”

**Mr Ta Quang Huy, Country Manager,
Hanwha Vision**

“The seminar today attracted a diverse audience, including government agencies and businesses in the security and safety sector nationwide. Our main message at Hanwha is that a building can only be smart if it is safe. Participating in this event allows us to connect with investors, company owners, and businesses, showcasing Hanwha as a leading provider of security and surveillance solutions. For consumers and investors, the seminar offers valuable insights into the best security providers in Vietnam, focusing on connected devices and smart infrastructure. I’ve noticed strong participation from partners and end-users this year, and I hope these connections help businesses and consumers find smarter, better solutions.”

**Mr Bui Thanh Luan, Director,
HIEPPHATCNC CO.,LTD**

“This seminar is very valuable because it brings together suppliers, especially those offering IoT solutions for smart factories—an area of growing interest in Vietnam. Today’s presentations highlighted devices and methods to integrate new technology into existing factories, addressing the significant challenge of connecting old machines with modern IoT systems. While building new smart factories is relatively straightforward, many Vietnamese factories still rely on older equipment that cannot easily connect or share data. This gap prevents a fully integrated smart factory solution. The insights shared today provide practical approaches to overcome these difficulties, helping businesses prepare and upgrade their facilities for a smarter, more connected future.”

COTECCONS

Coteccons Construction Joint Stock Company is a construction firm based in Ho Chi Minh City, Vietnam. The company has grown to become one of the country's most prominent contractors, renowned for delivering large-scale, complex projects across various sectors

LE THANH CONSTRUCTION VN

Le Thanh is recognized for its dedication to providing affordable housing solutions, particularly for middle-income families. The company's focus on community service and building trust has earned it a reputable position in the Vietnamese real estate market.

KEY VISITORS

Financial

VIETBANK

Vietbank is a Vietnamese commercial bank that offers a full range of financial services including retail and corporate banking, loans, deposits, and digital banking solutions. It focuses on supporting businesses, SMEs, and individuals with modern banking services.

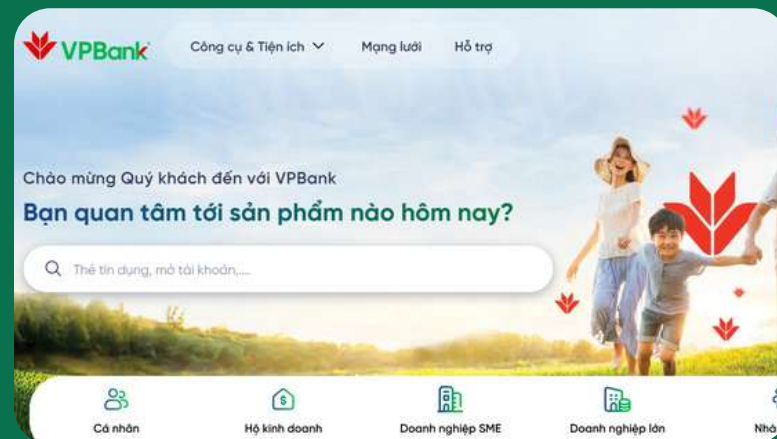

MB BANK

MB Bank is one of Vietnam's commercial banks, established by the Vietnam Ministry of Defense. It provides banking services for individuals and businesses, including loans, deposits, investment, and digital banking, with a strong reputation for reliability and security.

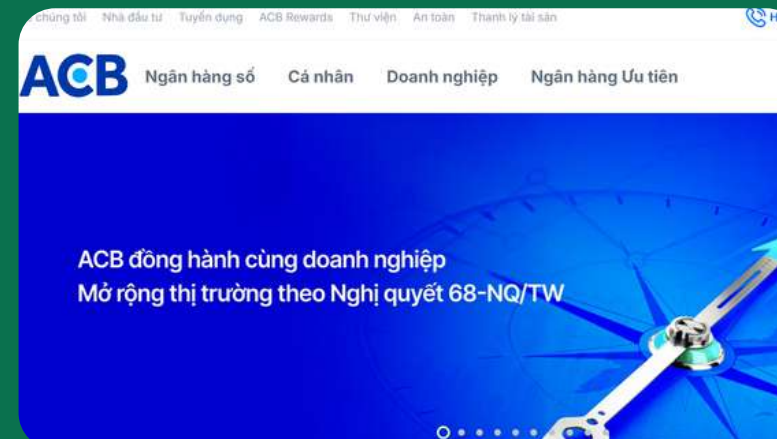

UOB

UOB is a Singapore-based multinational bank with a strong presence in Vietnam. It offers corporate banking, personal banking, investment, and wealth management services, focusing on facilitating cross-border trade and financial growth in the ASEAN region.

VPBANK

VPBank is a leading private bank in Vietnam known for its retail banking, SME financing, and digital banking solutions. It emphasizes innovative financial products and services to meet the evolving needs of individuals and businesses.

ACB (ASIA COMMERCIAL BANK)

ACB is a well-established Vietnamese commercial bank offering a wide range of services including personal banking, corporate banking, and investment solutions. It is recognized for its customer-centric approach and strong presence in retail banking.

TECHCOMBANK

Techcombank is one of Vietnam's private banks, providing comprehensive financial services, including loans, deposits, cards, and digital banking. It is known for innovative banking solutions, strong corporate banking services, and digital transformation initiatives.

KEY VISITORS IT / Telecom

FPT TELECOM

FPT Telecom is a Vietnamese telecommunications provider, part of FPT Corporation. It offers internet services, data center solutions, cloud computing, and enterprise IT services. Known for its innovation and strong digital infrastructure, FPT Telecom serves both residential and corporate customers across Vietnam.

VIETTEL

Viettel is Vietnam's telecommunications company, owned by the Ministry of Defense. It provides mobile, internet, and IT services domestically and internationally. Viettel is a major player in network infrastructure, 5G technology, and digital solutions, with operations in multiple countries.

CMC TELECOM

CMC Telecom, a subsidiary of CMC Corporation, specializes in providing high-quality internet, cloud services, data center solutions, and managed IT services in Vietnam. It focuses on digital transformation for businesses and is recognized for its reliable network and enterprise-grade solutions.

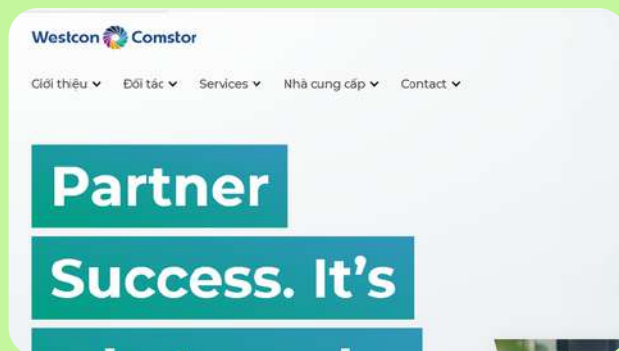

MOBIFONE

Mobifone is one of Vietnam's oldest mobile network operators, offering mobile services, internet, and value-added solutions. It has a strong presence nationwide and focuses on customer-centric services, smart solutions, and modern telecommunication technology.

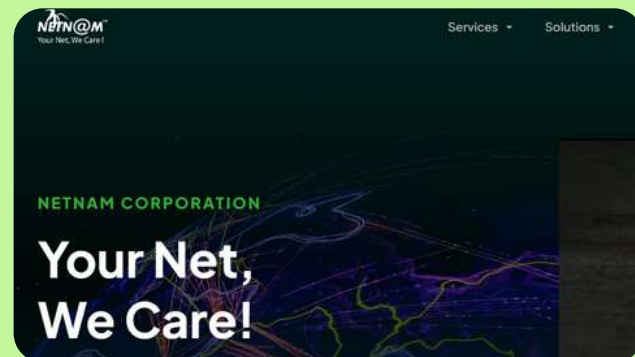

KEY VISITORS

IT / Telecom

Westcon Vietnam

Westcon Vietnam is a value-added IT solutions provider and leading distributor specializing in unified communications, network infrastructure, data center, and security solutions. As part of the global Westcon-Comstor network, the company serves as a market leader in Vietnam, offering quality products and services to resellers and vendors.

NETNAM

NetNam Corporation is a pioneering internet service provider in Vietnam. The company offers high-quality, secure internet connectivity solutions, delivering seamless and efficient experiences for businesses and organizations both domestically and internationally.

Viễn Thông IST360

Viễn Thông IST360 is a Vietnamese company specializing in providing and installing products and equipment in the fields of network systems, telephony, telecommunications, and CCTV systems.

VNTT

NTT is a professional provider of telecommunications and information technology services in Vietnam. The company specializes in data center and cloud services.

VECTOR INFOTECH VIETNAM

Vector InfoTech Vietnam is part of an established high-tech group with over 30 years in the technology business. They specialize in providing reliable, smart, and secure digitalization solutions across various industries. The company has a widespread international presence in 15 countries, including Asia and the Middle East.

KEY VISITORS

Other Sectors

Energy

BẢO LONG SOLAR ENERGY GROUP

Bảo Long Solar Energy Group is a Vietnamese enterprise specializing in solar energy solutions. A pioneer in Vietnam's solar energy sector, the company has expanded its operations nationwide, offering comprehensive services in solar power generation and infrastructure development.

V ENERGY

V Energy is a Vietnamese petroleum and LPG company providing high-quality fuel and gas products. Known for its LPG distribution and partnerships with international firms like Japan's TOKAI Corporation, it has a growing presence in the Vietnamese energy market.

Oil & Gas

PVOIL

PVOIL, a subsidiary of Vietnam Oil and Gas Group (PVN), trades and distributes petroleum products like gasoline, diesel, lubricants, and biofuels. It is one of the largest petroleum distributors in Vietnam, with over 1,500 stations nationwide, making it a household name for fuel supply.

CÔNG TY XĂNG DẦU KHU VỰC II

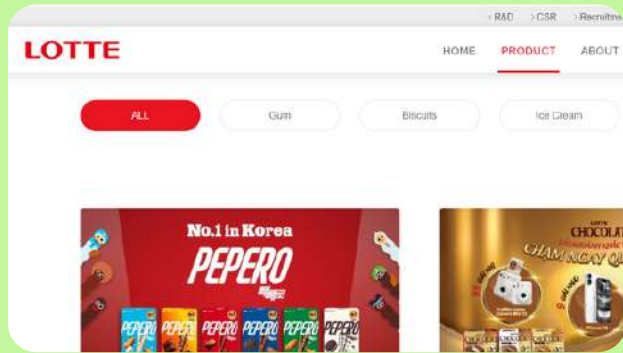

Petrolimex Sài Gòn, a member of Vietnam National Petroleum Group (Petrolimex), operates mainly in southern Vietnam, supplying gasoline, diesel, and other petroleum products. It's one of the oldest and most trusted fuel suppliers in southern Vietnam, with strong government backing and a wide retail network.

KEY VISITORS

Other Sectors

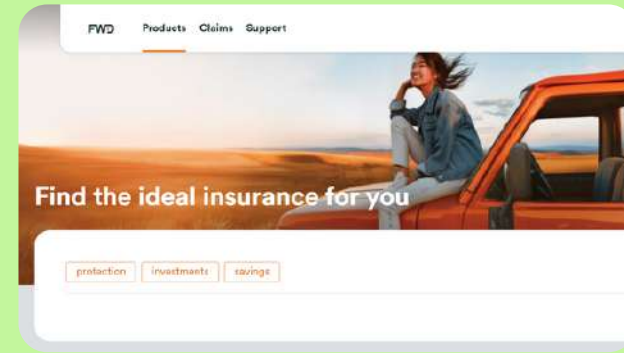

Shopping Mall

LOTTE COMPANY VIETNAM

Lotte Vietnam, a subsidiary of South Korea's Lotte Corporation, operates in retail, F&B, entertainment, and real estate, making a strong impact on Vietnam's retail and entertainment sectors.

Insurance

FWD VIETNAM

FWD Vietnam, part of FWD Group, offers life, health, and investment-linked insurance, known for its innovative, digital-first approach to customer-friendly insurance services.

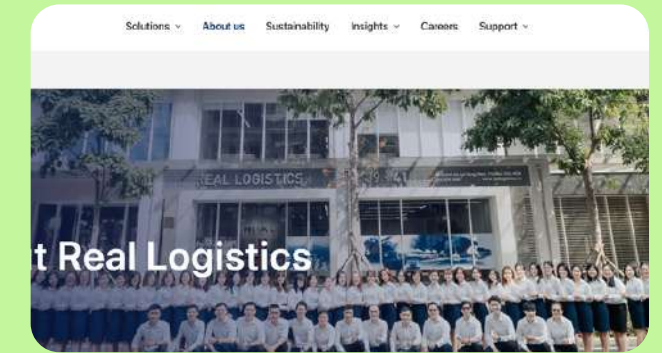

Education

HO CHI MINH CITY UNIVERSITY OF CULTURE (HCMUC)

HCMUC is a public university under the Ministry of Culture, specializing in culture, arts, information, and tourism education and research.

Logistic

REAL LOGISTICS

Real Logistics is a Vietnam-based company providing air/sea freight, trucking, customs, and warehousing. Operating in major cities and serving 120+ countries.

Booth Application

Tại Secutech Vietnam 2025, chúng tôi sẽ vượt ra ngoài khuôn khổ an ninh và phòng cháy truyền thống để giới thiệu cách AI, IoT, ICT và tự động hóa đang thay đổi hoạt động của các nhà máy và tòa nhà trên khắp Việt Nam. Lần đầu tiên, triển lãm sẽ tổ chức hai hội thảo chuyên đề kéo dài cả ngày, với sự hỗ trợ từ Hội Tin học TP. Hồ Chí Minh (HCA) và Hội Tự động hóa TP. Hồ Chí Minh (HAA):

- Hội thảo Công nghệ tự động hóa và Nhà máy Thông minh
- Diễn đàn Tòa nhà thông minh & Hạ tầng mạng 2025

Mỗi chương trình kết hợp giữa những hiểu biết về thị trường, các buổi thảo luận kỹ thuật và nghiên cứu điển hình từ các thương hiệu và hiệp hội hàng đầu, giúp người tham dự hiểu rõ cách mà các nền tảng số, hệ thống kết nối và tự động hóa thông minh có thể giúp cơ sở vật chất an toàn hơn, hiệu quả hơn và sẵn sàng cho tương lai.

Fire Safety & Rescue VIETNAM

Trân trọng kính mời tham quan triển lãm Fire Safety & Rescue 2025 và sự kiện diễn ra đồng thời!
Fire Safety & Rescue đã khẳng định là một nền tảng B2B quan trọng, tập trung đầu tư vào các khu công nghiệp, tòa nhà cao cấp và xây dựng cũng như nhiều dự án khác tại Việt Nam. Sự kiện thu hút 480 thương hiệu trưng bày từ 17 quốc gia và vùng lãnh thổ, tập trung vào nhóm ngành chính: thương mại quốc tế lớn nhất về phòng cháy chữa cháy và cứu nạn cứu hộ tại Việt Nam.

Khách tham quan chủ yếu đến từ các ngành dọc sau

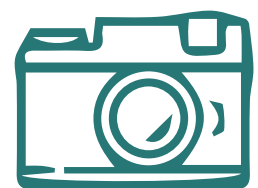

- Khu công nghiệp / Nhà máy / Công nghệ cao
- Tòa nhà cao cấp
- Xây dựng / Quản lý tòa nhà
- Chính phủ và thành phố thông minh
- Bán lẻ SMB
- Tòa nhà thương mại
- Giao thông

Khu trưng bày & hoạt động tại triển lãm

- Khu gian hàng quốc gia: Nhật Bản, Singapore, Hàn Quốc
- Tọa đàm Chuyển đổi số và ứng dụng công nghệ mới trong lĩnh vực PCCC và CNCH
- Diễn đàn doanh nghiệp với chủ đề "Đối thoại với doanh nghiệp, hiệp hội DN về phòng cháy, chữa cháy"
- Hoạt động tuyên truyền cho người dân kiến thức cơ bản về PCCC
- Hội thảo Giải pháp công nghiệp thông minh
- Tour Giao thương trực tiếp

Chúng tôi rất mong được chào đón bạn tham quan Fire Safety & Rescue 2025 để mở ra nhiều cơ hội hợp tác và phát triển.
